Having always taken an interest in the retail business world, owner Edward Weaver started the Bicycle Barn, LLC in September 1991. Edward never thought his venture into the retail world would involve bicycles.

Edward, along with his wife Grace, daughter Marylou, son, Wendall and employees Arthur Leid and Randall Martin work together to keep your bicycles at peak performance. In order to provide the highest quality of bicycle repair to their customers, Edward and Randall attended a two day Park Tool Tech Summit.

Everyone at the Bicycle Barn, LLC wants to continue providing the best service possible and would like to extend a thank you to all of their loyal employees. This winter has had lots of snow, but remember spring will soon be here. Bring your bicycles in early before the rush and get them repaired.
