“The Essence of Home for Peace of Mind.”

The staff and new management at Colonial Lodge Assisted Living Community consider it a privilege to meet the challenge of providing for the needs of people in our surrounding communities. Colonial Lodge has been a personal care, or assisted living facility for almost twenty years. During the last decade, Colonial Lodge has grown to include an independent living wing. This area provides services for people who do not need personal care, but would like to have some services provided for them, including 24-hour access to immediate assistance in their unit if needed.

Assisted living residents are encouraged to be as independent as possible. However, medication monitoring, laundry, housekeeping, meals and help with more personal needs (such as bathing, dressing and money management) are part of what we do every day at Colonial Lodge. A customized plan, including special dietary needs, is made for each person living at Colonial Lodge. We are also a VA approved facility.

Please call to schedule a tour of our facility. Talk to our residents! They truly are the heartbeat of our facility. Contact our Admissions Director at 717-336-5501, ext. 201, or use our toll-free number, 800-406-2273, ext. 201. We would be delighted to show you our home!
