

EPHRATA AREA REHAB. SERVICES

With a staff of two and only 20 clients, EARS began operation in a warehouse at 145 East Locust Street, Ephrata. In over 40 years EARS has grown to a professional staff of 40 dedicated men and women,

that serves over 250 people on a daily basis. We have expanded our services to include adult day care, vocational training, job placement services and transportation for adults with mental disabilities. We specialize in subcontract packaging, assembly and bulk mailing. We can do the job in our facilities or, with our mobile work crews, we can do the job at a customer's location. Through the EARS/ODC Employment Project, we provide job placement and on-the-job training.

EARS was formed by a group of Ephrata citizens. Our success is due, in a large part, to the support of the Ephrata community. We thank you for this support.

If you would like to know more about EARS, contact us at 733-0710.
