

KISSEL VILLAGE EYE CARE

Is it time for an eye exam, new contact lenses or glasses? Are you looking for a local, easy to do business with private practice rather than having to travel to the mall? Then Kissel Village Eye Care may be just what you are looking for.

Since graduating from optometry school in 1993, the priority for owner Dr. Kathryn E. Collins, OD was to start a private practice in a small community. Dr. Collins started her Lititz practice in 2001. It has continued to grow in the last 9 years, as Lititz has too; becoming a hub for excellent health care. In addition to managing her practice, Dr. Collins is the proud mother of two daughters, 9 and 10 years old.

Dr. Collins and her friendly and knowledgeable staff, Laura Autrey, optical manager, and Brittany Lewis, optician, take great satisfaction in helping their patients see better. The practice provides comprehensive eye examinations and has recently expanded their state of the art medical equipment by adding a retinal camera and a corneal topographer to better aid in diagnosing and treating medical eye conditions. Dr. Collins has 17 years experience examining eyes, treating eye disease and fitting contact lenses.

Kissel Village Eye Care also specializes in all types of contact lenses including astigmatism and bifocal lenses. They also offer a selection of over 700 frames including brands Flexon, Disney, Kate Spade, Coach, Guess and Tommy Hilfiger. They also carry sunglasses, safety glasses and sports eyewear.

Always adding new services to help her patients, Dr. Collins also co-manages LASIK and cataract surgery.
