

AFP ADVANCED FOOD PRODUCTS LLC

AFP advanced food products llc is one of North America's leading aseptic private label/co-pack food manufacturers of innovative, shelf-stable cheese sauces, dips, puddings, sauces and soups. As a result of our seasoned employees and thriving workplace environment, we consistently provide the best value and service to our customers.

Making its start in the 1940s, AFP is a pioneer in aseptic manufacturing and has been using aseptic food processing methods since 1951. Aseptic technology uses ultra-high temperatures and a short heating time to preserve freshness and nutrition. The product and the packaging are sterilized separately and then combined and sealed in a sterilized atmosphere. This process extends shelf life and does not require the use of preservatives.

At AFP we have been experiencing sustained growth and continual expansion. One of the most notable changes in our industry has been the increased difficulty in staffing. With unemployment so low in Lancaster County, finding employees with the necessary skills is increasingly competitive. Our company provides the perfect setting for qualified job seekers wanting to join us in this far-reaching industry. Due to our expansion, AFP currently has many job opportunities in maintenance, packaging, processing and sanitation positions.

We are working with the Chamber of Commerce and the Workforce Development Board on ways to change the perception that manufacturing is a dead-end job. AFP is working towards changing the conversation at schools and with parents about the viability of these skilled jobs. This is a national issue that is being faced by many companies. We are committed to being proactive and coordinating our efforts within the community in order to build a strong economic basis for Lancaster County.

With three strategically located facilities—in New Holland, Pennsylvania, Clear Lake, Wisconsin and Visalia, California—our triangulated placement gives us access to convenient distribution channels nationally and internationally. We offer our customers unrivaled logistical advantages regardless of size or industry.

AFP is continually striving to improve the way we do things so we can create a better environment and continue our long-lasting expansion. We are committed to fostering proactive and innovative leadership, delivering market-driven solutions and adding value through dedication to our customers' success. Come join the AFP team and see for yourself what makes us stand apart from the competition.

Give us a call at 717-355-8500 and visit our website at www.apfllc.com. AFP's New Holland facility is located at 158 W. Jackson Street, New Holland, PA 17557.
