

# DC EAGER EMERGENCY SERVICES™ LLC

DC Eager Emergency Service, LLC are experts in all types of property damage that may occur within your home or business, such as Water, Sewer, Lead, Mold and Hoarding. They have also become well known throughout the contractor world for their Clean/Selective Demolition. Darlene Eager, Owner, has been in the business for 18 years. She has put together an amazing team who shares her love of the business as well as her love of helping and caring for people.

Do you suspect mold growth in your home or business? Are you worried about the possible impact it may have on the health of your family? There is a lot of misinformation about mold and scare tactics that are used by other companies. DC Eager would love the opportunity to educate you on YOUR situation, as each condition is unique.

If you suspect mold is present, there are a few necessary things you must know while waiting for DC Eager to assess your home. First, locate and fix the source of the moisture which has caused the mold to grow and spread. As where there is moisture, there will be mold, the moisture must be removed or the mold will just grow back. Second, there is no magic potion that you spray on mold and it just disappears. Bleach does not kill mold. Bleach will whiten mold staining just as it does with your laundry but the mold itself will still be there. If a mold remediation is done correctly, there is no need for chemicals. And lastly, do not wipe the mold or introduce air movement directly onto the affected area as this can promote the spreading of mold to other areas of the home or business.

Hiring DC Eager, who is a certified, reputable, experienced and professional mold remediation company is your best option. You cannot just ignore mold, it won't just go away, but it can get worse. Everyone at DC Eager is passionate about what they do and want to make sure their customers are educated and their experiences are stress free.

If you or anyone you know needs the services of DC Eager Emergency Services, LLC, please feel free to call Darlene at 717-989-5763 for a FREE assessment/estimate. You can also check them out at [www.dceager.com](http://www.dceager.com) for more information.
