

# MARTIN TREE SERVICE, LLC

Do you have a tree that is dying, is it too large or does it make the yard dirty? Martin Tree Service LLC has been in business for 30 years and we would like to have the opportunity to use our skills to remove your tree safely. We are fully insured and trained to do your tree work.

Our employees come with professional customer service that surpass other tree services in the area. Our equipment is maintained on a regular basis by our in-house mechanic. This allows us to work efficiently until the job is complete.

We use our 40 ton crane to remove trees that are difficult to access. The logs and wood are usually moved off of the property within 24 hours after the tree has been cut.

We offer to grind the stump shortly after the removal of the tree. We can also clean up the grindings, replace it with top soil and seed that area with grass

We are located in New Holland, Lancaster County. For many years, we have also serviced the local counties such as Berks and Chester.

The office is staffed full-time Monday through Friday from 7:00 a.m. to 5:00 p.m., and can be reached by calling 717-354-5939 or emailing at [info@martintreeservice.com](mailto:info@martintreeservice.com). For more information, please visit our website: [Martintreeservice.com](http://Martintreeservice.com) and follow us on Facebook.
