

# THE ROBERT M. LOMBARD HYPERBARIC OXYGENATION MEDICAL CENTER, INC.

**Hyperbaric oxygenation therapy + Pulsed Electro-Magnetic Field Therapy = a powerful combination!**

Hyperbaric oxygenation therapy (HBOT) is a prescribed medical treatment. A patient breathes pure oxygen in a sealed chamber while the surrounding pressure is increased to a therapeutic level. The increase in pressure dissolves oxygen into the bloodstream and all the fluids of the body. The treatment triggers hundreds of internal biological processes, builds tiny new blood vessels, boosts the immune system and stem cell production, adversely affects many microbes and reduces inflammation and low oxygen areas in the body. This can have a positive impact on a wide range of diagnoses and conditions. Radiation-induced injuries and non-healing diabetic wounds, among other maladies, can be healed with minimal surgical intervention. Other diagnoses can be positively helped with HBOT when traditional medicine needs a boost. When antibiotics alone can't cure a Lyme disease infection, under hyperbaric oxygenation conditions, the Lyme bacteria can't survive. The immune system cleans up the dead bacteria and the body begins to repair the damage caused by the bacteria. HBOT can be life changing for patients.

Current studies are underway and show the positive impact hyperbaric oxygenation has had on long-haul COVID-19 patients. HBOT reduces inflammation, repays the lingering 'oxygen debt' and initiates healing of previously impacted areas. Patients with reduced cognitive performance ("brain fog"), extreme fatigue, and headaches, among other symptoms, report improvement in their symptoms.

Pulsed Electro-Magnetic Field Therapy (PEMF) is a non-invasive therapy that helps improve circulation, energy balance, and nutrient uptake. We offer the combination of therapies for the health benefits of our patients.

We are an outpatient clinic that uses 100% oxygen in monoplace chambers. The Nursing Director, Connie Waltz, RN, has over 40 years of experience in the field. For information, please call 717-684-3228, visit [HBXYGEN.COM](http://HBXYGEN.COM), or email: [hboxygen@earthlink.net](mailto:hboxygen@earthlink.net). Business hours are by appointment. 255 N. 6th Street, Columbia, PA 17512.
