

MIDDLE CREEK BUILDERS, INC.

Middle Creek Builders, Inc is celebrating 50 years of providing customers with quality workmanship in the construction industry. They specialize in building custom homes, renovations, additions and light commercial work.

Middle Creek Builders is a family-owned and operated business that was started in 1974 by Walter Bollinger, Jr. (retired). From the beginning, Walter focused on quality workmanship with attention to detail, which established his solid reputation in the area. Today, his sons, Darryl, Duane and grandson Dalton, continue to carry on the business, along with Sheila (Office Manager), Daulton (Carpenter) and George (Carpenter). Together they provide homeowners with beautiful, quality-laden homes, renovations and additions.

One hallmark of Middle Creek Builders is their willingness to communicate with the homeowner during all phases of the building process, providing an enjoyable stress-free building experience. Their newly-renovated office and shop is located at 1716 West Main Street, Ephrata. For more information, view their website at www.middlecreekbuilders.com or call in at 717-733-8966.
