

Weaver's Towing & Recovery knows that if you are calling them for service, most likely you are in a very stressful situation. Their goal is to be able to assist customers in these difficult, unplanned times by providing a family-friendly atmosphere where trust is established quickly. A recent customer commented that her daughter had been in an accident late one night and needed a ride back with the tow truck driver. The mother was glad that she knew she could trust Weaver's Towing & Recovery to bring her daughter back safely.

Galen Weaver is the current owner of Weaver's Towing & Recovery, which has been family-owned and operated since 1970. Galen purchased the towing business from his cousin Daryl Weaver in 2020. They have a large variety of towing & recovery equipment including an enclosed trailer to haul motorcycles, and a rollback with a dovetail bed for lowered cars. They can tow and haul anything from motorcycles, cars, pick-ups, RVs and tractor trailers. They also have a spill trailer for large spills from accidents. Their clean, red Peterbilt trucks and equipment portray a lasting image to customers.

Other services offered include lock-outs, tire changes and light-heavy duty jump starts. They are a member of the PA Towing Association. Galen recommends that everyone has full insurance coverage on all vehicles. Since accidents already come with unplanned expenses, fully insured vehicles would cover towing costs and assist with vehicle replacement expense.

Needing a tow is never fun. If you find yourself in an accident, please remember to request Weaver's Towing & Recovery to assist you through this difficult circumstance. They are located at 533 East Newport Road, Lititz and office hours are Monday through Friday, 8:00 a.m. to 4:00 p.m. with availability 24/7 for towing and recovery. They can be reached at 717-625-2124. You may also view their website at www.weaverstowing.com for more information.
